

REMARKS

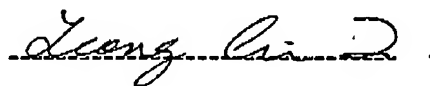

This case has been carefully reviewed and analyzed in view of the Official Action dated February 16, 2007.

The Examiner has objected to the specification as failing to provide proper antecedent basis for the claimed subject matter. Claim 5 has been canceled to overcome the objection.

Further, the Examiner has rejected claims 4-5 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Moreover, the Examiner has suggested a new claim to put it in condition for allowance. Claims 4-5 have been canceled and replaced with new claim 6 which is exactly the same as the claim suggested by the Examiner.

It is now believed that the subject Patent Application has been placed in condition of allowance, and such action is respectfully requested.

Respectfully submitted,
